

## Aspire 8" Inch Knee Walker

### Features and Benefits:

- Height adjustable steering handles
- Height adjustable knee pad
- Large padded knee pad for comfort
- Dual handbrakes for added safety
- Knee walker can be steered for increased manoeuvrability

Provides mobility support to person with an injury below the knee by supporting half of the body weight on the walker and half on the uninjured leg. Adjustable knee pad height caters to a large range of user heights. Dual hand brakes for added safety and control. Fold down mechanism ensures that the walker can be stored in minimal space when not in use.
