

Aspire Classic 6" Inch Seat Walker

Features and Benefits:

- Hand brakes are ultra-soft and have a palm-ball lock for users.
- The handle height can be easily adjusted with hand wheels.
- The frame is made of rustproof, robust aluminium for durability and stability while remaining lightweight.
- Folding the walker is easy and convenient for storage and transportation.
- The handles are anatomically designed, latex-free, and comfortable to grip, especially for users with arthritis.
- The backrest is curved and padded for comfortable seated support and can be easily removed for folding/storage.
- The padded seat flips up for access to the storage bag (included) or for folding.
- The front castor wheels swivel for increased manoeuvrability.
- The 6 inch diameter wheels are solid and puncture-proof for use on various surfaces.

The A Frame Seat Walker/Rollator line is equipped with 6-inch castor wheels that offer superior stability and manoeuvrability both indoors and outdoors. The loop brakes incorporated into the design provide the user with the ability to lock the castors in place, ensuring the device remains stationary.
