Invacare Leo Scooter

Features:

Safe, solid, secure: the Invacare Leo. The Invacare Leo is a scooter designed for all those that value their independence and wish to get out and about unaided.

Safety is a key feature of the Leo, but this does not detract from its stylish and sporty looks.

Leo offers users the freedom and confidence to enjoy their essential daily outings and leisure excursions.

With exactingly high standards of design and safety engineering, the Leo undoubtedly sets a new market standard.

Users can easily adjust the tiller with a lever to suit their needs.

Rear brake lighting warns other people that the scooter is slowing down, thus preventing collisions.

Swivel functionality and sliding rails ensure optimal seating position.

This unique two-step disengaging lever prevents the scooter from accidentally freewheeling.

Backrest width
470 mm

Seat depth
410 mm

Floor to seat height
460 - 560 mm

Backrest height
475 mm

Driving unit width
590 mm
