

Merits Aurora S2 Hill Climber Scooter

Features and Benefits:

- Loop handlebars offer comfortable finger or thumb throttle operation
- Adjustable suspension system allowing for more rider control and comfort
- Larger 4 pole motor and larger controller delivering much more power for climbing steep driveways or hills
- Separate emergency braking system for added security

Introducing the Aurora S2 4 wheel Hill Climber - the ultimate ride for those who love to conquer steep hills and driveways! This scooter is not just powerful and versatile; it's also packed with nifty features that make it a joy to ride. Fancy loop handle bars? Check! Easy finger and thumb throttle operation? Double check! And let's not forget the built-in emergency switch for extra safety and stability around corners. This scooter boasts adjustable suspension, large wheels, and a bigger motor than your average scooter. With a separate emergency brake, great ground clearance, and massive batteries, you can enjoy a comfortable and stylish ride for a whopping 40-50 Km range.
