

Mobility Zone

Aspire Vogue Forearm Seat Walker

Features and Benefits

- The stylish European designed Aspire Vogue Walkers are a lightweight, versatile range with a sturdy frame and easy to fold locking system, suitable for compact transportation when folded
- Luxury Look and Feel - European design, profiled tubing, moulded fittings and chic colour palette
- Smart Posture System - Height, angle and depth adjustable forearm supports achieve optimal centre of gravity for improved balance and weight redistribution
- Smooth height adjustment with AUTOLOCATE - Graduated and numbered upright shaft automatically locates to preset heights, making adjustment simple and accurate
- Ergonomic Design - Intelligent location of cross brace and generous under seat clearance provide scope for improving patient stride length
- Rehab Focus - Easy to push with a small turning circle and low rolling resistance to accelerate standing mobility
- Locks when Folded - Makes lifting the frame easier and minimises storage space required
- User Comfort - Super-soft wheels and padded forearm surfaces absorb bumps and jolts creating a smooth, comfortable ride
