

U-Step 2 Walker

Features and Benefits:

- Reversed braking system
- Small turning circle for tight spaces
- Rolling resistance control
- Spring-loaded front wheels
- Folds for easy transporting
- Sound & laser cue module attachment available

U-Step 2 was designed to increase independence and eliminate falling among those with neurological conditions. The leading-edge features of the Li-Step 2, as compared to other walking aids, make it superior by providing more stability, maneuverability and control. Tens of thousands of people with neurological conditions have benefited from the Li-Step 2 design.
