POLARIS

Scooter Accessories Guide

Everything you need to make your scooter safer, more comfortable and more useful, and how to make sure each accessory fits.

Start here: how accessories attach

Nothing on the back of your scooter
Choose **rear-mount** items. They fit the accessory outlet behind the seat (rear flag, cane and crutch holders).

Rear bag or L piece fitted
Choose **side-mount** items. Cane holders, oxygen holders and the sun canopy attach to the L piece or rear bag.

Not sure what you have?
Most scooters need a **model-specific bracket or adapter**. Tell us your scooter make and model, or bring it in, and we'll confirm the parts.

Safety and visibility

Accessory	Code	Price	Fits / you'll need
